FLORIDA BOARD OF PROFESSIONAL ENGINEERS

FLORIDA BOARD OF PROFESSIONAL ENGINEERS,

Petitioner,

v.

CARLTON G. FORBES, P.E.,

Respondent,

/ 

FINAL ORDER ADOPTING SETTLEMENT STIPULATION

THIS CAUSE came before the FLORIDA BOARD OF PROFESSIONAL ENGINEERS ("Board"), pursuant to Sections 120.569 and 120.57(4), Florida Statutes, on August 10, 2017 in Orlando, Florida, for the purpose of considering a Settlement Stipulation (attached hereto as "Exhibit A to Final Order") entered into between the parties in this cause. Upon consideration of the stipulation, the documents submitted in support thereof, and the arguments of the parties, it is hereby:

ORDERED AND ADJUDGED that the Settlement Stipulation as submitted be and is hereby adopted in toto and incorporated herein by reference. Accordingly, the parties shall adhere to and abide by all the terms and conditions of the stipulation.

This Final Order shall take effect upon being filed with the Clerk of the Department of Business and Professional Regulation.

DONE AND ORDERED this 18 day of August, 2017.
CERTIFICATE OF SERVICE

I HEREBY CERTIFY that a true and correct copy of the foregoing filed Final Order Adopting Settlement Stipulation has been furnished by U.S. First Class Mail to Carlton G. Forbes, P.E., by service upon his attorney of record: Salvador A. Jurado, Jr., Esquire, P.E., 6401 NW 74TH Avenue, Miami, Florida 33166 this 21 day of August, 2017.

Rebecca Valentine,
Paralegal
SETTLEMENT STIPULATION

CARLTON FORBES, P.E. ("Respondent") and the Florida Board of Professional Engineers ("Board") by and through the Florida Engineers Management Corporation ("FEMC"), hereby stipulate and agree to the following joint stipulation and Final Order of the Board, incorporating this Stipulation in the above-styled manner.

STIPULATED FACTS

1. For all times pertinent hereto, Respondent was a licensed engineer in the State of Florida, having been issued license number PE 20699.

2. Respondent was charged by an Administrative Complaint ("Complaint") filed by FEMC, and properly served upon Respondent with violations of Chapters 471 and 455, Florida Statutes. A true and correct copy of the filed Administrative Complaint is attached hereto and incorporated by reference as “Exhibit A to Settlement Stipulation”.

STIPULATED CONCLUSIONS OF LAW

1. Respondent, in his capacity as a licensed engineer, admits that in such capacity he is subject to provisions of Chapters 455 and 471, Florida Statutes, and the jurisdiction of the Department of Business and Professional Regulations ("Agency"), FEMC, and the Board.
2. Respondent admits that the facts set forth in the Complaint, if proven, constitute violations of Chapters 455 and 471, Florida Statutes, as alleged in the Complaint.

STIPULATED DISPOSITION OF LAW

1. Respondent shall, in the future, comply with Chapters 471 and 455, Florida Statutes, and the rules promulgated pursuant thereto.

2. Should Respondent fail to comply with the terms of the Final Order, an administrative complaint for failure to comply with final order will automatically be opened against Respondent.

3. Respondent’s shall pay an **ADMINISTRATIVE FINE** of $500.00 and **COSTS** of $6,202.10 to the Board within one (1) year of the date that the Final Order adopting this Stipulation is filed with the Agency Clerk. The payments shall be made in quarterly payments. The first payment of $1675.60 will be due 90 days following the date that the Final Order adopting this Stipulation is filed with the Agency Clerk and the remaining quarterly payments of $1,675.50 shall be due every 90 days thereafter, until the full amount is paid.

4. Respondent’s license to practice engineering shall be **REPRIMANDED**.

5. Respondent shall **APPEAR** before the Board when this Stipulation is presented. Respondent must be prepared to discuss: how this situation occurred, what improvements and quality control measures Respondent plans to implement to improve Respondent’s work product, and how Respondent intends to prevent this circumstance from occurring in the future.

6. Respondent shall be placed on **PROBATION** for two (2) years from the date the Final Order adopting this Stipulation is filed with the Agency Clerk., with the following terms:

   a. Respondent shall successfully complete a Board-approved course in **BASIC ENGINEERING PROFESSIONALISM AND ETHICS** within one (1) year of the date the Final Order adopting this Stipulation is filed with the Agency Clerk. **Prior to that date, Respondent shall submit to the Board a Certificate of Completion of the course. It is the Respondent’s responsibility to notify the Board that he has completed the course in a timely manner.**
manner. Respondent may contact the Florida Engineering Society ("FES"), 125 South Gadsden St., Tallahassee, FL 32301, (850)224-7121, for information regarding the availability of such courses in Florida; however, if the FES provides any information regarding such a course to the Respondent, the Respondent must submit that course information to the FEMC for review and determination as to whether or not it will comply with the Board’s requirements. Respondent may also elect to complete one of the following correspondence courses offered by:

Murdough Center for Engineering Professionalism  
Texas Tech University, PO Box 41023, Lubbock, Texas 79409  
**Engineering Ethics Basic**  
**Engineering Ethics Intermediate**  
**Engineering Ethics Advanced**  
Telephone 806-742-3525; Fax 806-742-0444; E-mail: engineering.ethics@ttu.edu

EPD Program  
Auburn University  
Engineering Extension Service  
217 Ramsay Hall, Auburn, Alabama 36849-5331  
Ethics and Professionalism  
Phone 800-446-0382 or 334-844-4370

An Accredited College or University course if that course information is first submitted to the FEMC for review and determination as to whether or not it will comply with the Board’s requirements.

_Courses offered by Continuing Education Programs or Professional Business Programs (Exp: SunCam, Inc., C2Ed), are not Board Certified, and will not meet the requirements._

b. Respondent shall successfully complete the **STUDY GUIDE** which has been prepared by the Board and which will be furnished to Respondent, regarding the Engineering Practice Act, Chapter 471, Florida Statutes, and the Rules of the Board. Respondent is required to provide a personal email address that will be used to access the on-line study guide. The study guide must be completed within ninety (90) days of the date on which the Final Order incorporating this Stipulation is filed with the Agency Clerk.

c. Respondent shall submit to the Board a detailed list of all completed projects (signed, sealed, and dated), by the Respondent for **PROJECT REVIEW** at six (6) and
eighteen (18) month intervals from the date the Final Order adopting this Stipulation is filed with the Agency Clerk. The projects shall include: all completed mechanical, electrical, and plumbing (MEP) engineering projects and reports signed and sealed by Respondent. This list must include mechanical, electrical, and plumbing (MEP) engineering disciplines which do not necessarily need all to appear in the same projects, but all three disciplines must be available for review.

d. A FEMC Consultant will select two (2) projects from each submitted list for review. Respondent is responsible for promptly furnishing any set of completed plans (signed, sealed, and dated), calculations, and any other supporting documentation requested by the Consultants. The Respondent must sign, date, and seal all materials that are submitted for project review using a non-embossed, seal. Sealed project review materials may be copied and submitted electronically, if desired by the Respondent. Respondent is also responsible for the Consultant’s fees for reviewing the projects, and shall remit payment in the amount of $2,000.00 by check or money order made payable in the name of the Board’s Consultant at the time that the project lists are submitted to FEMC. In the event that the project review cost exceeds $2,000.00, then the Respondent is responsible for the deficiency. In the event that the cost of the reviews is less than $2,000.00, then the unused portion will be refunded to respondent. Should the Consultant return an unfavorable report concerning Respondent’s projects, that report shall be submitted to the Probable Cause Panel for determination of whether additional disciplinary proceedings should be initiated.

e. If the Respondent has not performed engineering services on a sufficient number of projects to make the submissions required by 5c., above, the initial or, if applicable, the subsequent submission required by the terms of probation shall be extended for a period of six (6) months to allow Respondent to perform the services necessary for the required review.
However, if, after the extension has expired, Respondent does not perform sufficient engineering services to meet the requirements of the terms of probation, Respondent’s license will be placed on voluntary inactive status as defined in Section 455.227, Florida Statutes, by the Board, without any further necessity for action on the part of Respondent. Respondent’s license shall remain on such status, provided Respondent meets the requirements of Section 455.227, unless and until Respondent notifies the Board that he wishes to recommence practice and obtains Board authorization to reactivate his license under such terms of probation that the Board deems appropriate at that time.

f. Should the Respondent fail to timely comply with the terms of the Final Order with regard to the Project Reviews discussed herein, this case will be submitted to the Probable Cause Panel for review and determination of whether additional disciplinary action should be taken.

8. Respondent acknowledges that neither Respondent’s attendance at the Board Meeting when this Stipulation is presented, nor any continuing education or college level courses taken as a requirement of the terms of this Stipulation may be used to comply with the continuing education requirements of Chapter 61G15-22, Florida Administrative Code.

9. It is expressly understood that this Stipulation is subject to approval of the Board and FEMC and has no force and effect until the Board issues a Final Order adopting this agreement.

10. This Stipulation is executed by Respondent for the purpose of avoiding further administrative action with respect to this cause. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to or in conjunction with consideration of the Stipulation. Furthermore, should this joint Stipulation not be accepted by the Board, it is agreed that presentation to and by the Board shall not unfairly or illegally prejudice the
board or any of its members from further participation, consideration or resolution of these proceedings.

11. Respondent expressly waives all further procedural steps and expressly waives all rights to seek judicial review of or otherwise challenge or contest the validity of the joint Stipulation of Facts, Conclusions of Law, imposition of discipline and the Final Order of the Board incorporating said Stipulation.

12. Respondent waives the right to seek any attorney's fees or costs from the Board in connection with this disciplinary proceeding.

WHEREFORE, the parties hereto request the Board to enter a Final Order accepting and implementing the terms contained herein.

Signature
Carlton Forbes, P.E.
Respondent
Case No. 2016003962
Dated: 6/5/17

APPROVED this 14 day of June, 2017.

FLORIDA BOARD OF PROFESSIONAL ENGINEERS,

Petitioner,

v.

CARLTON G. FORBES, P.E.,

Respondent,

FEMC Case No. 2016003962

ADMINISTRATIVE COMPLAINT

COMES NOW the Florida Engineers Management Corporation (FEMC) on behalf of Petitioner, Florida Board of Professional Engineers, hereinafter referred to as "Petitioner," and files this Administrative Complaint against CARLTON G. FORBES, P.E., hereinafter referred to as "Respondent." This Administrative Complaint is issued pursuant to Sections 120.60 and 471.038, Florida Statutes. Any proceeding concerning this complaint shall be conducted pursuant to Section 120.57, Florida Statutes. In support of this complaint, Petitioner alleges the following:

1. Petitioner, Florida Board of Professional Engineers, is charged with regulating the practice of engineering pursuant to Chapter 455, Florida Statutes. This complaint is filed by the Florida Engineers Management Corporation (FEMC) on behalf of Petitioner. FEMC is charged with providing administrative, investigative, and prosecutorial services to the Florida Board of Professional Engineers pursuant to Section 471.038, Florida Statutes (1997).
2. Respondent is, and has been at all times material hereto, a licensed professional engineer in the State of Florida, having been issued license number PE 20699. Respondent's last known address is 1520 NW 107 Drive, Pompano Beach, Florida 33065.

3. On May 28, 2014, Respondent sealed and signed engineering design documents for a proposed Home Office located at 4810 SW 57th Terrace; Davie, FL (Office Project). The documents consist of Sheets A-1 (Site Plan / Plumbing Riser), A-2 (Floor Plan / Elevations), E-1 (Electrical Plan), S-1 (Roof Framing Plan and Details), S-2 (Foundation Plan and Details), M-1 (HVAC Plan).

4. Section 471.033(1)(g), Florida Statutes, provides that an engineer is subject to discipline for engaging in negligence in the practice of engineering. Rule 61G15-19.001(4), Fla. Admin Code, provides that negligence constitutes "failure by a professional engineer to utilize due care in performing in an engineering capacity or failing to have due regard for acceptable standards of engineering principles." Rule 61G15-19.001(4) also provides that "failure to comply with the procedures set forth in the Responsibility Rules as adopted by the Board of Professional Engineers shall be considered as non-compliance with this section unless the deviation or departures there from are justified by the specific circumstances of the project in question and the sound professional judgment of the professional engineer."

5. The Board has adopted Responsibility Rules of Professional Engineers (Responsibility Rules). These Rules are contained in Chapter 61G15-30 to Chapter 61G15-36, Fla. Administrative Code. Professional Engineers who perform services covered by the Responsibility Rules are required to comply with the Rules. Included in the Responsibility Rules are Rules that govern Electrical (Rule Chapter 61G15-33) and Mechanical (Rule Chapter 61G15-34)
Engineering Documents produced by a Professional Engineer for inclusion with an application for a general building permit.

6. Respondent acted as Electrical and Mechanical Engineer of Record for the Office Project as that term is defined in Rule 61G15-30.002(1), F. A. C. As such, all engineering documents prepared, signed, sealed and dated by Respondent must contain the information set out in Rule 61G15-30.003(1), F. A. C.:

When prepared for inclusion with an application for a general building permit, the Documents shall meet all Engineer's Responsibility Rules, set forth in Chapters 61G15-33 and 61G15-34, F.A.C., and be of sufficient clarity to indicate the location, nature and extent of the work proposed and show in detail that it will conform to the provisions of the Florida Building Code [FBC], adopted in Section 553.73, F.S., and applicable laws, ordinances, rules and regulations, as determined by the Agency Having Jurisdiction. The Documents shall include:

(a) Information that provides material specifications required for the safe operation of the system that is a result of engineering calculations, knowledge and experience.

(b) List Federal, State, Municipal, and County standards, codes, ordinances, laws, and rules, with their effective dates, that the Engineering Documents are intended to conform to.

(c) Information, as determined by the Engineer of Record, needed for the safe and efficient operation of the system.

(d) List engineering design criteria; reference project specific studies, reports, and delegated Engineering Documents.

(e) Identify clearly elements of the design that vary from the governing standards and depict/identify the alternate method used to ensure compliance with the stated purpose of these Responsibility Rules.
7. The FBC (2010) – Building (FBC-B) Section 107.2.1 “Information on construction documents” states: “Construction documents shall be of sufficient clarity to indicate the location, nature and extent of the work proposed and show in detail that it will conform to the provisions of this code and relevant laws, ordinances, rules and regulations, ...”

8. FBC-B Section 2701.1 “Scope” states: “This chapter governs the electrical components, equipment and systems used in buildings and structures covered by this code. Electrical components, equipment and systems shall be designed and constructed in accordance with the provisions of the 2008 NFPA 70, National Electrical Code (NEC).”

9. FBC-B Section 2801.1 “Scope,” states: Mechanical appliances, equipment and systems shall be constructed, installed and maintained in accordance with the Florida Building Code, Mechanical (FBC-M). FBC-B Section 107.3.5 “Minimum plan review criteria for buildings” states: “The examination of the documents by the building official shall include the following minimum criteria and documents: Mechanical: 5 Make-up air; 9 Combustion air.

10. FBC-B Section 2901.1 Scope, states: “Plumbing systems and equipment shall be constructed, installed and maintained in accordance with the Florida Building Code, Plumbing (FBC-P).”

11. Rule 61G15-33.001 “Responsibility Rules of Professional Engineers Concerning the Design of Electrical Systems” “General Responsibility” states in material part that: “Electrical Engineering documents shall be prepared in accordance with applicable technology and with the requirements of the authority having jurisdiction. The documents shall identify the Engineer of record for the electrical systems project. Electrical Engineering documents shall demonstrate compliance with the requirements of the applicable codes and standards, ...”
12. Rule 61G15-33.003(2) "Design of Power Systems," requires in material part that "Electrical Engineering Documents applicable to the design of electrical power systems shall, at a minimum, indicate the following: (a) Power Distribution Riser Diagram with short circuit values; ... (c) Circuit interrupting devices and fault current interrupting capability; (d) Location and characteristics of surge protective devices; ... (f) Voltage drop calculations for the feeders and customer-owned service conductors . . . . (l) Record documents applicable to power systems shall, at a minimum, contain information as required by Florida Building Code."

13. Rule 61G15-34.001 "Responsibility Rules of Professional Engineers Concerning the Design of Mechanical Systems" states that "Mechanical Engineering Documents shall be prepared in accordance with the applicable technology and with the requirements of the authority having jurisdiction. The documents shall identify the Engineer of Record for the mechanical systems project. Mechanical Engineering documents shall demonstrate compliance with the requirements of the applicable codes and standards . . . ." Rule 61G15-34.003(2) "Design of Heating, Ventilating and Air Conditioning (HVAC) Systems," states in material part: "All HVAC systems shall be designed in accordance with the Florida Codes, and reference standards as adopted by the authority having jurisdiction." Rule 61G15-34.003(4) "Design of Heating, Ventilation and Air Conditioning (HVAC) Systems," requires in material part that "[f]or Mechanical Engineering Documents pertaining to HVAC systems ... shall indicate the following: (d) Outside (fresh) air make-up conditions; (e) Cooling coil requirements based on sensible heat, latent heat and total heat gains; (g) Outside and inside design dry and wet bulb conditions."

14. Rule 61G15-34.007(2) "Design of Plumbing Systems," requires in material part that Mechanical Engineering Documents applicable to Plumbing Systems shall, when applicable, include but are not limited to the following: "(c) Potable Water isometric diagrams with pipe sizes
and total water fixture units; (d) Sanitary riser diagrams with pipe sizes and total sanitary waste fixture units; (e) Storm riser diagrams with pipe sizes and cumulative drain area square footages; (f) Cold water, hot water, sanitary, and storm drainage piping layouts;... (i) List of ASHRAE [American Society of Heating, Refrigerating, and Air Conditioning Engineers], ASME [American Society of Mechanical Engineers], ASPE [American Society of Plumbing Engineers], ANSI [American National Standards Institute] and other applicable codes, design standards and requirements;...”

**ELECTRICAL DOCUMENTS**

15. Respondent’s Electrical Engineering Design Documents for the Office Project are materially deficient as follows:

A. The drawings contain an Electrical Riser Diagram, but no short circuit values and no voltage drop calculations for the feeders and customer-owned service conductors. These omissions constitute violations of Rule 61G15-33.003(2)(a) and (f). Additionally, the Electrical Riser Diagram (ERD) on Sheet E-1 shows the utility service conductors to be 3 #2/0, feeding a 200 amp panel. This violates 2008 NEC Table 310-16 which requires #3/0 copper conductors to serve 200 amps. The ERD also shows 3 #4 conductors serving new panel B, with a 100 amp main circuit breaker. This violates 2008 NEC Table 310-16 which requires #3 copper conductors to serve 100 amps. Thus, both service conductors are undersized by Respondent.

B. The electrical drawing E-1 contains panel schedules with circuit interrupting devices, but no specification regarding fault current interrupting capability. The absence of fault current interrupting capability for the circuit interrupting devices constitutes a violation of Rule 61G-33.003(2)(c).
C. No surge protective devices are shown on the drawings. This constitutes a violation of Rule 61G15-33.003(2)(d).

D. The drawings do not contain information as required by the FBC. FBC-B Section 107.3.5 “Minimum plan review criteria for buildings” states:

“The examination of the documents by the building official shall include the following minimum criteria and documents: Electrical 1. Electrical grounding.” The new Panel B in standalone Home Office has no ground conductor to bond to a driven ground rod, water pipe or foundation rebar. The absence of these FBC-B requirements constitutes a violation of Rule 61G15-33.003(2)(l).

E. Electrical Note 1 on Sheet E-1 states: “All electrical work shall conform to the latest revision of the N.E.C. and local governing codes.” This note constitutes a violation of Rule 61G15-33.003(1)(b), which requires Engineering Documents to include: Federal, State, Municipal, and County standards, codes, ordinances, laws and rules, with their effective dates, to which the Engineering documents are intended to conform.

MECHANICAL (HVAC & PLUMBING) DESIGN DOCUMENTS

16. Respondent’s Mechanical (HVAC & Plumbing) Engineering Design Documents for the Office Project are materially deficient as follows:

A. The mechanical drawing (M-1) does not contain outside (fresh) air make-up conditions. Specifically, there are no make-up air calculations and no combustion air calculations. These omissions constitute a violation of Rule 61G15-34.003(4)(d) and FBC-B Section 107.3.5.

B. Note 01 on the mechanical drawing (M-1) states: “All work shall conform to the latest edition of the standard building code and applicable state and local ordinances.”
This constitutes a violation of Rule 61G15-30.003(1)(b), which requires Engineering Documents to include: Federal, State, Municipal, and County standards, codes, ordinances, laws and rules, with their effective dates, that the Engineering documents are intended to conform to.

C. No Potable water isometric diagrams are shown. Total water fixture units for the building are not shown on the drawing. These omissions constitute a violation of Rule 61G15-34.007(2)(c).

D. Isometric sanitary riser diagrams are shown on Sheet A-1; however, total sanitary waste fixture units for the building are not shown on the drawings. Additionally, pipe sizes are missing from the isometric risers. These omissions constitute a violation of Rule 61G15-34.007(2)(d).

E. There is no building drain cleanout shown on the Plans or on the Sanitary Risers. This violates FBC-P Section 708.3.5 “Building drain and building sewer junction” which states:

There shall be a cleanout near the junction of the building drain and the building sewer. The cleanout shall be either inside or outside the building wall and shall be brought up to the finished ground level . . . . An approved two-way cleanout is allowed to be used at this location to serve as a required cleanout for both the building drain and building sewer.

F. No storm riser diagrams are shown on the drawings. No area drainage calculations are shown on the drawings. The omission of storm riser diagrams and area drainage calculations constitutes a violation of Rule 61G15-34.007(2)(c).

G. The drawings contain no sanitary piping layouts, no cold water, no hot water, and no storm drainage piping layouts. These omissions constitute a violation of Rule 61G15-34.007(2)(f).
H. Plumbing Note 12 on sheet A-1 states: “Comply with all codes and ordinances.” However no other codes, design standards or requirements are shown on the drawings. The omission of applicable codes, design standards and requirements constitutes a violation of Rule 61G15-34.007(2)(i). This also constitutes a violation of Rule 61G15-30.003(1)(b), which requires Engineering Documents to include: Federal, State, Municipal, and County standards, codes, ordinances, laws and rules, with their effective dates, to which the Engineering documents are intended to conform.

COUNT I

17. Petitioner realleges and incorporates Paragraphs One (1) through Eight (8), Eleven (11), Twelve (12) and Fifteen (15) as if fully set forth in this Count One.

18. Respondent’s Electrical Engineering Plans for the Office Project contain deficiencies including, but not limited to, those set forth in Paragraphs Eleven (11), Twelve (12) and Fifteen (15). Respondent violated the provisions of Section 471.033(1)(g), Florida Statutes, and Rule 61G15-19.001(4), F. A. C., by signing and sealing engineering documents that were issued and filed for public record when such documents were materially deficient in that Respondent: (1) did not exercise due care in the preparation of the final engineering documents for the Office Project and (2) the final engineering documents for the Office Project were not issued in compliance with acceptable engineering principles.

19. Based on the foregoing, Respondent is charged with violating Section 471.033(1)(g), Florida Statutes, by engaging in negligence in the practice of engineering.

COUNT II

20. Petitioner realleges and incorporates Paragraphs One (1) through Seven (7), Nine (9), Ten (10), Thirteen (13), Fourteen (14) and Sixteen (16) as if fully set forth in this Count Two.
21. Respondent’s Mechanical (HVAC & Plumbing) Engineering Design Documents for the Office Project contain deficiencies including; but not limited to, those set forth in Paragraphs Thirteen (13), Fourteen (14) and Sixteen (16). As a result of those deficiencies, Respondent violated the provisions of Section 471.033(1)(g), Florida Statutes, and Rule 61G15-19.001(4), F. A. C., by signing and sealing engineering documents that were issued and filed for public record when such documents were materially deficient in that Respondent: (1) did not exercise due care in the preparation of the final engineering documents for the Office Project and (2) the final engineering documents for the Office Project were not issued in compliance with acceptable engineering principles.

22. Based on the foregoing, Respondent is charged with violating Section 471.033(1)(g), Florida Statutes, by engaging in negligence in the practice of engineering.

WHEREFORE, the Petitioner respectfully requests the Board of Professional Engineers to enter an order imposing one or more of the following penalties: permanent revocation or suspension of the Respondent’s license, restriction of the Respondent’s practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, the assessment of costs related to the investigation and prosecution of this case, other than costs associated with an attorney’s time, as provided for in Section 455.227(3), Florida Statutes, and/or any other relief that the Board deems appropriate.

SIGNED this 19 day of May, 2017.
